## INFORMATION TECHNOLOGY SOLUTIONS THAT WORK FOR YOU

We started McGeary Tech to provide personalized services for small and medium sized businesses as well as individuals. Unfortunately more often than not these people get lost in the shuffle when dealing with large companies. We know that smaller businesses and individuals have mission critical technology needs and our goal is to fulfill those needs. With over 15 years experience in education and corporate system

administration we have the knowledge and experience to help you. While still giving you the personal service you would expect from a hometown business. Give us a call and we will earn your business the old fashioned way with dedication, hard work and trust. McGeary tech is ready to be a partner in your business success.
